This permit must be applied for at Goodlettsville Public Works, 215 Cartwright Street, Goodlettsville, TN 37072 ph. (615) 851-3462

The City of Goodlettsville, Tennessee, hereby grants permission to commence with grading work. Grading work must commence within **60 days** of issuance or grading permit will be void

* The permit is good for **1 year from date of issue** ---- after that date, you must contact this office for renewal

* Applicant must have an approved ***Storm Water Pollution Prevention Plan (SWPPP)*** and an ***Erosion Prevention & Sediment Control Plan (EPSC)*** for this site **before grading work can commence.**

* ***Notice of Work:*** The contractor shall provide the City of Goodlettsville Public Works Department (615) 851-3462 with a ten-day notice prior to any grading work. Grading shall conform to lines and grades as shown on the approved drawing and shall be in accordance with the specifications as approved by the City of Goodlettsville, its ***Stormwater Management Ordinance, Best Management Practice Manuals and TDEC's Construction General Permit.***

* Where applicable, work shall also conform to the requirements as for construction done near or in a stream potentially effected by the project set forth in the Aquatic Resource Alteration Permit (ARAP) as issued by the Natural Resource Section of the Tennessee Department of Environment and Conservation on _____ and the Department of Army permit issued by the Corp of Engineers on _____ for work in or near delineated wetlands. No work shall commence within a TVA easement until TVA has granted permission and written verification is provided to the City of Goodlettsville. The contractor and/or developer shall be responsible for obtaining all permits required by agencies and/or governmental entries having jurisdiction.

* Erosion control devices, as shown on the approved ***Erosion Prevention & Sediment Control Plan (enclose plan with this Land Disturbance Permit)*** shall be in place prior to any grading, clearing and/or any other construction activity. These devices shall be maintained throughout the construction period; generally considered to be through the completion of restoration. **A copy of your EPSC plan along with an inspection checklist and Stormwater Permit must be at the project site at all times.** The inspection checklist shall have a record of dates EPSC devices are inspected and any correction action taken or major observations.

* All EPSC devices are to remain in place until the site has been stabilized and a good stand of grass has been established.

* **Erosion prevention and sediment controls must be inspected at least twice every calendar week and at least 72 hours apart by a currently-licensed Professional Engineer or Landscape Architect, a Professional in Erosion and Sediment Control (Level 1), or a person who has successfully completed the (Level II) course. Inspections are to be documented and kept with the SWPPP box.**

The project is subject to inspection by the City of Goodlettsville at any time and items found deficient shall be immediately corrected. The City may stop construction on properties, or administer other enforcement actions as defined by Goodlettsville's *Stormwater Management Ordinance* including Civil Penalties of \$50 to \$5,000 each per day of each violation.

Pre-Construction Check off list:

Please initial that these have been accomplished before construction:

_____ Stormwater Management Plan and Erosion Prevention and Sediment Control Plan accompanying this permit.

_____ **Silt fence or other sediment barriers** will be installed properly along topographical contours downslope of the area to be disturbed prior to any grading, clearing and/or any other construction activity. Excavated topsoil to be reused must be stockpiled and encircled with silt fencing.

_____ This site shall contain a temporary stone construction entrance that conforms to the City of Goodlettsville's Stormwater Ordinance and Best Management Practice Manual within 24 hours of grading commencement or the permit will be revoked. The stone shall be **2-3 inches in diameter** and shall be kept clean by adding stone as needed. It shall be at least 8 inches deep underlain with filter fabric, 20'W X 100'L.

_____ Where applicable, approved inlet protections for nearby storm sewer curb and drop inlets have been installed.

_____ Where applicable, existing vegetation and **Buffer** will be maintained and temporary cover crops will be used.

_____ Offsite material storage and /or borrow areas (also including overburden and stockpiles of dirt, etc.) used for this project are considered part of the project and are hereby governed by this permit.

The following erosion prevention and sediment control BMPs will be performed until Bond is released:

- Vegetative buffers or other protection must be provided along streams, rivers, and ponds to avoid erosion of banks.
- Stabilization measures must be performed within fourteen (14) days in portions of the site where construction activities have temporarily or permanently ceased. (7) days on steep slopes.**
- All trees designated to remain, must be protected. Heavy equipment should not be operated or stored, nor materials handled or stored, within the drip line of trees.
- Sediment must be removed from sediment barriers, ponds and other sediment controls when design capacity has been reduced by 50%.
- Sediment that has escaped the construction site and has collected in the street or drainage structures must immediately be physically removed.
- Building and waste materials, and non-storm water discharges, such as concrete, paint wash water, or machinery leakage or spillage must be managed to prevent them from entering the stormwater system, ground water or nearby water body.
- BMPs must be inspected by a qualified person who has taken an approved erosion and sedimentation course.

(Issuance of this Land Disturbance Permit does **not** exempt you from complying with any provision of the City of Goodlettsville's *Stormwater Management Ordinance* that applies).

(All correspondence is required to reference Permit number)

I certify, under penalty of law, that I have reviewed this document and understand the erosion prevention and sediment control requirements here in. I agree to implement and follow the provisions of the Land Disturbance Permit for the construction site. I understand that these requirements will be inspected and enforced by the City of Goodlettsville and failure to comply may result in the issuance of a "stop work order" and/or other penalties until compliance is accomplished. The undersigned will be responsible for complying with this permit and any provision of the Goodlettsville Stormwater Management Ordinance that applies.

LAND DISTURBANCE PERMIT Instructions

This permit must be applied for at: Goodlettsville Public Works Department, 215 Cartwright Street, Goodlettsville, TN 37072.
 Phone 615 851-3462.

Purpose of this form:

To eliminate any non-allowable discharges to Goodlettsville’s Municipal Separate Storm Sewer System (MS4) that impact water quality.

Completing the form: Type or print clearly, using ink and not markers or pencil. Initial each blank item and make a check mark in the boxes signifying that you have read these sections and will comply with them. Submitting this **Land Disturbance Permit** does not exempt you from complying with all aspects of the city of Goodlettsville’s **Stormwater Management Ordinance**. This form does not exempt you from obtaining any other state, local or federal required permits.

Who must submit a Land Disturbance Permit form?

Any one that is disturbing more than one acre of land use.

No site development permit is required for the following activities:

- Any emergency activity that is immediately necessary for the protection of life, property, or natural resources.
- Agricultural land management activities (except where the clearing of the land, forest or other agriculture activity, results in activities other than further agriculture or forest use).
- Additions or modifications to existing detached single-family dwellings.
- Developments that do not disturb more than one acre of land use. This exception may not be applied for contiguous properties that may have been subdivided and/or are attributed to multiple separate owners. This exemption does not apply to any discharge of sediment or other form of water pollution that may leave a small site.

Other permits:

➤ An **ARAP permit** may be required. If your work will disturb or cause alterations of a stream or wetland, you must obtain an appropriate Aquatic Resource Alteration Permit (ARAP) before you will receive a City of Goodlettsville Land Disturbance Permit. If you have a question about the ARAP program or permits, contact your local Tennessee Department of Environment and Conservation Environmental Assistance Center.

If you are disturbing more than **1 acre** you will also need a **NPDES Permit** from TDEC; you will need to have it and supply a copy before obtaining a Goodlettsville Land Disturbance Permit.
